Education

Master of Computer Applications(MCA) CGPA: 7.35/10

2024-2026

Pimpri Chinchwad College of Engineering, Pune.

Bachelor of Commerce in Computer Applications(BCCA) CGPA: 7.4/10

2021-2023

Dr. Ambedkar Institute of Management Studies and Research, Nagpur.

Technical Skills

- **Languages:** Python, Java, JavaScript, SQL
- **Frontend:** React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend:** Django
- **Database:** MySQL
- **Version Control:** Git, GitHub
- **Cloud:** AWS (Basic)
- **Tools:** VS Code, Postman

Personal Projects

AI Assisted Box Selection System | [LINK](#)

React, Tailwind CSS, Python, Django, SQLite

- Engineered a full-stack packaging optimization platform featuring a React frontend and Django REST Framework backend to calculate the most cost-effective shipping box for multi-item orders.
- Implemented a 3D bin-packing algorithm with 6-way item rotation and guillotine space splitting, integrating input validation and automated unit tests to enforce physical dimension and weight limits before persisting catalog data to SQLite.

Maintenance Request & Vendor Accountability System | [LINK](#)

Django, HTML, CSS, JavaScript, Bootstrap, SQLite

- Developed a full-stack facility management platform with role-based access for residents, vendors, and admins, featuring a state-machine-enforced ticket lifecycle, SLA-based auto-escalation, and recurring-issue detection to flag repeat complaints.
- Built an analytics dashboard with Chart.js visualizing request trends and vendor performance metrics (response time, resolution time, ratings), backed by Django ORM aggregate queries and a centralized status-audit trail.

SplitEase: Group Expense Splitting | [LINK](#)

Django, HTML, CSS, JavaScript, Bootstrap, SQLite

- Developed a full-stack expense-splitting web application with group management, expense tracking with multiple split types (equal, custom, percentage, share-based), and a debt-simplification algorithm to minimize settlement payments.
- Designed a responsive and user-friendly interface using HTML, CSS, JavaScript, and Bootstrap, with Django and SQLite for backend and data management.

Certificates

- Data base Management System - NPTEL
- The Complete Full-Stack Web Development Bootcamp - Udemy
- The Complete MySQL Bootcamp: Go from Beginner to Expert - Udemy

Extracurricular Activities

Served as a member of the organizing team for **INSPERIA**, the annual college event, by visiting various colleges to promote and invite students. Coordinated outreach activities, enhancing communication, leadership, and organizational skills, and played a key role in boosting event participation and engagement across multiple institutions.
